QUALITY POLICY

It is the undertaking of top management to ensure that the Quality Policy is in accordance with the requirements of ISO 9001:2015 that it is communicated, implemented and maintained throughout the whole organization.

To accomplish this, we will ensure that all products and services meet contractual /customer and legal requirements.

Total commitment of top management and staff to application and continual improvement of the quality management system and its processes to achieve set objectives

To supply quality systems with high standards of reliability and performance

To be the preferred vacuum /compressor supplier by offering unrivaled service and quality product

Ensure effective planning and addressing risk
Ensure all employees to be competent in their field or area
Ensure adequate resources available to meet the above

Quality Policy be available to all interested parties
To be signed by Top management
